SUMMARY

As a highly motivated and dedicated graduate of the Department of informatics at the University of Piraeus, I have successfully acquired a solid foundation in programming, demonstrating my skills through the completion of various important projects. Currently, I am deeply absorbed in my dissertation on various web projects, which has allowed me to delve even deeper into advanced topics on the Front-end sectors.

EDUCATION

Department of Informatics at the University of Pireaus| Pireaus,Greece   2018-2025

PROJECTS

Eshop:
Development of a flexible website using React to create a modern and intuitive user interface. Intergration of API for dynamic retrieval and display of updated products. This project demonstrated proficiency in Front-end development and API integration.
